Youth!

*Are you interested in making your community a better place?
Have you ever wondered why voting makes a difference or how you can influence elected officials?*

Have you ever thought about running for elected office?

This workshop is a space for you to explore the political process; share concerns about your community and your ideas for how to make it a better place; and craft a political agenda and demands based on your concerns. We will use a popular education format, including music, small group discussions, role-plays, interactive presentations, games, and poetry.

Adults: Our discussions will cover the value of young people being politically active, ways to make intergenerational work more effective, how to better support young people in your organization and community, and tips for how to create spaces for young people's voices in decision-making.

This is one workshop split into two parts – if you can, please attend both parts. as the second session will build off of the first.
